## Verse 1:

**G**                    **C**                    **G**                    **C**  
Just a few short months ago, we were told it wouldn't be long  
**G**    **C**                    **C**    **D**  
We put on a mask, kept pushing through, even though there was something wrong  
                         **Em**                    **C**    **G**                    **D**  
It's been almost a year, and I can't help but fear we're back to square one  
   **Em**                    **C**    **D**  
While there's no end in sight, our future is bright and our song has just begun

## CHORUS:

**Em**                    **C**                    **G**                    **D**  
Even though I'm stuck here in Quarantine, doesn't mean I can't sing  
   **Em**                    **C**                    **D**  
Even though I'm stuck here in quarantine  
   **Em**                    **C**                    **G**                    **D**  
It won't take my voice, break my spirit, there's a song you just have to hear it.  
                         **Em.** **C** **D**    **G**  
Feels like month 19....                    But I can still sing

## Verse 2:

**G**                    **C**                    **G**                    **C**  
A lot of time has passed, and it feels like everything has changed  
                         **G**                    **C**    **D**  
Not a day goes by when I wish things had all just stayed the same  
   **Em**                    **C**    **G**                    **D**  
Now those tear drops I cried for that voice trapped inside have found a new stream  
                         **Em**                    **C**                    **C**                    **D**  
'Cause you'd be amazed how in days and delays, I'd found a different dream

## CHORUS:

**Em**                    **C**                    **G**                    **D**  
Even though I'm stuck here in Quarantine, doesn't mean I can't sing  
   **Em**                    **C**                    **D**  
Even though I'm stuck here in quarantine  
   **Em**                    **C**                    **G**                    **D**  
It won't take my voice, break my spirit, there's a song you just have to hear it.  
                         **Em.** **C** **D**    **C**  
Feels like month 19....                    But I can still sing

**Bridge:**

**Am**            **Em**                            **G**                            **D**  
Think of going outside, and not wearing a mask just to go for a ride and...  
**Am**            **Em**                            **G**                            **D**  
Hugging family and friends, and not worrying about what the CDC recommends  
**Am**            **Em**    **G**                            **Am**    **Em**            **D**  
Just keep holding on.... It's always darkest before the dawn

G F#/D F/Em

**CHORUS:**

**Em**                            **C**                            **G**                            **D**  
Even though I'm stuck here in Quarantine, doesn't mean I can't sing  
                          **Em**                            **C**                            **D**  
Even though I'm stuck here in quarantine  
                          **Em**                            **C**                            **G**                            **D**  
It won't take my voice, break my spirit, there's a song you just have to hear it.  
                          **Em.**    **C**    **D**                            **G**  
Feels like month 19....            But we can still sing
