C em F G
Looking out the window, at the birds looking back at me
C em F G
Each one living their life happy, joyous, and free
C em F G
They don't think about the future or dwell in the past
C em F G
They're living in the moment flying high and fast

C em F G
When I live in the moment all is well
C em F G
My mind is clear, there's peace in my heart
C em F G
The past is done, the future's not here
C em F G
I'm living in the moment, right now

F C
May you find your way
F C
To live free of the burdens of the past
F
When tomorrow comes, I'm sure you'll see

It's better than you thought it would be

When I live in the moment all is well

My mind is clear, there's peace in my heart
C em F G
The past is done, the future's not here

I'm living in the moment, right now
