

## Technology Checklist for Remote Music Services

Use these questions to assess what equipment is available and necessary for your contracting organization to use in facilitating remote music services:

### Do you have broadband internet access?

- WiFi network
- Wired connections (where?)

### How many people will be participating at a time?

- Large group
- Small group (max 4 people)
- Individual
- Individual + family on video

### Which of the technology options do you have available in your facility?

#### If you want large group activities:

- Video
  - Projector
  - Smart TV
  - Computer with large monitor
- Sound
  - Internal speakers
  - External speakers
- Software - live sessions
  - Zoom - free app download
  - Doxy.me - accessible from web browser
- Software - recorded programs
  - Web browser
  - YouTube

#### If you want small group activities (max 4 people):

- Video
  - Tablet
  - Computer
- Sound
  - Internal speakers
  - External speakers

- Software - live sessions
  - Zoom - free app download
  - Doxy.me - accessible from web browser
- Software - recorded programs
  - Web browser
  - YouTube

If you want individual activities:

- Video
  - Tablet
  - Smartphone
  - Laptop computer
- Sound
  - Internal speakers
  - Bluetooth speaker
  - Headphones
- Software - live sessions
  - Zoom - free app download (may also include one or more family members)
  - Doxy.me - accessible from web browser
- Software - recorded programs
  - Web browser
  - YouTube

**Would you like advice on what equipment to purchase with your available budget?**

See Remote Services Purchasing Tips for help.

**(Optional) Would you like to check out some of our equipment?**

**What else would you like to be able to do with your technology equipment?**

Listen for their ideas on what services they'd like to make available.
